Objective

I am Senior mud logger at (Petro services GmbH, Egypt branch), with 3 years of hands-on experience at Petro services GmbH, specializing in monitoring drilling fluids and providing crucial geological insights for oil and gas exploration projects. Proficient in data collection, analysis, and reporting to ensure wellbore stability and drilling efficiency. Skilled in collaborating with drilling teams to optimize operations and maintain safety standards. Actively seeking new opportunities to leverage expertise and drive success in the energy industry

Work Experience

Senior mud logger, Petro services GmbH 12/2023 – Present
Egypt branch

- Real-time monitoring of drilling parameters and onsite operations
- Preparing daily reports
- Prepare, revise and QC mud logs
- Maintain and repair all mud logging equipment

Mud logger, Petro services GmbH 12/2021 – 11/2023
Egypt branch

- Real-time monitoring of drilling parameters and onsite operations
- Performing thin section samples
- Performing casing, tripping, cement, and losses reports
- Assist site data engineer in preparing daily reports
- Prepare, revise and QC mud logs
- Identify formation tops through correlations with offset wells
- Maintain and repair all mud logging equipment

Trainee Mud logger, ECS Company 08/2021 – 11/2021

- Drilling samples collection, preparation, and description
- Evaluate drilling samples for hydrocarbon shows and cuttings lithology
- Rigging up & rigging down of mud logging unit

Internships and Trainings

EDGE Pro for Information Systems 09/2021

Desert Research Center 09/2021

Rashpetco (Shell-JV) 08/2021

AAPG home training in sessions 10/2020

Well sitting, well logging, structure geology, stratigraphy, seismic interpretation, and processing.

S.G. for HSSE Services 11/2019

Khalda Petroleum Company 08/2019

Schlumberger school 10/2018

Petrophysics and well logging training

Exploration & Drilling operations for oil and gas wells, Misr Training Center "MTC"

Introduction to well intervention, Misr Training Center “MTC”

Write professional emails in English, Georgia Institute of Technology

Natural gas course, SPE ASC

Land drilling rig site preparation

Education

Bachelor of science, geophysics department, petroleum geophysics program, 09/2017 – 07/2021

Ain Shams university

Cumulative grade: very good (B+) Last year percentage: 84% Graduation project:

Evaluation of Hydrocarbon Prospectively of Cloud spin petroleum field. Project

grade: Excellent (-A)

Skills

Languages

- Arabic (native)
- English (Professional)
- Italy (Beginner)

Software

- MS Word, Excel, PowerPoint, Python and Matlab
- Petrel (Seismic interpretation)
- IPI2win (GEOelectric software)
- Surfer (Mapping software)
- Techlog software
- Geosoft software
- Vasta (seismic processing) software

Soft skills

- Presentation, Motivation, Leadership and Time Management skills
- Team worker leader and member
- Work under Pressure

Extracurricular Courses

Exploration & Drilling operations for oil and gas wells, Misr Training Center “MTC”

Introduction to well intervention, Misr Training Center “MTC”

Write professional emails in English “Georgia Institute of Technology”

Natural gas course, SPE ASC

Land drilling rig site preparation
