Date of birth: 20/1/1999
Nationality: Egyptian
Military Service: exempted

OBJECTIVE

- I am **Senior mud logger** at (Petro services GmbH, Egypt branch), with 3 years of hands-on experience at Petro services GmbH, specializing in monitoring drilling fluids and providing crucial geological insights for oil and gas exploration projects. Proficient in data collection, analysis, and reporting to ensure wellbore stability and drilling efficiency. Skilled in collaborating with drilling teams to optimize operations and maintain safety standards. Actively seeking new opportunities to leverage expertise and drive success in the energy industry

WORK EXPERIENCE

- Senior mud logger** at (Petro services GmbH, Egypt branch) (Dec2023: until know)
 - Real-time monitoring of drilling parameters and onsite operations
 - Preparing daily reports
 - Prepare, revise and QC mud logs
 - Maintain and repair all mud logging equipment
- Mud logger** at (Petro services GmbH, Egypt branch) (Dec-2021: Nov-2023)
 - Real-time monitoring of drilling parameters and onsite operations
 - Performing thin section samples
 - Performing casing, tripping, cement, and losses reports
 - Assist site data engineer in preparing daily reports
 - Prepare, revise and QC mud logs
 - Identify formation tops through correlations with offset wells
 - Maintain and repair all mud logging equipment
- Trainee Mud logger** at ECS Company. (Aug-2021: Nov-2021)
 - Drilling samples collection, preparation, and description
 - Evaluate drilling samples for hydrocarbon shows and cuttings lithology
 - Rigging up & rigging down of mud logging unit

EDUCATION

- Bachelor of science, geophysics department, petroleum geophysics program, Ain Shams university.
 - Sep-2017: July-2021
 - Cumulative grade: very good (B+) - Last year percentage: 84%
- Graduation project: Evaluation of Hydrocarbon Prospectively of Cloud spin petroleum field.
 - Project grade: Excellent (-A)

INTERNSHIPS AND TRAININGS

- EDGE Pro for Information Systems (Sep 2021)
- Desert Research Center (Sep 2021)
- Rashpetco (Shell-JV) (Aug 2021)
- AAPG home training in sessions (Oct 2020)
 - Well sitting, well logging, structure geology, stratigraphy, seismic interpretation, and processing.

- S.G. for HSSE Services (Nov 2019)
- Khalda Petroleum Company (Aug 2019)
- Schlumberger school (Oct 2018)
 - Petrophysics and well logging training

EXTRACELLULAR COURSES

- Exploration & Drilling operations for oil and gas wells, Misr Training Center “MTC”
- Introduction to well intervention, Misr Training Center “MTC”
- Write professional emails in English “Georgia Institute of Technology”
- Natural gas course, SPE ASC
- Land drilling rig site preparation

SKILLS

- **Languages:**
 - Arabic (native)
 - English (Professional)
 - Italy (Beginner)
- **Software:**
 - MS Word, Excel, PowerPoint, Python and Matlab
 - Petrel (Seismic interpretation)
 - IPI2win (GEOelectric software)
 - Surfer (Mapping software)
 - Techlog software
 - Geosoft software
 - Vasta (seismic processing) software
- **Soft skills:**
 - Presentation, Motivation, Leadership and Time Management skills
 - Team worker leader and member
 - Work under Pressure
